Irish Company law requires the directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

The directors are responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and with Irish statute comprising the Companies Acts 2014. They are also responsible for safeguarding the assets of the company and hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT OF ACCOUNTING POLICIES FOR THE YEAR ENDED 29 SEPTEMBER 2025 (*continued*)

Taxation and deferred taxation

The yearly charge for taxation is based on the profit for the year and is calculated with reference to the tax rates applying at the balance sheet date. Deferred taxation is calculated on the differences between the company's taxable profits and the results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. The full deferred tax effect is recognised on differences between amounts funded and amounts charged to the profit and loss account in relation to pensions and other post retirement benefits. In calculating the amount of deferred tax, discounting is used.

Pensions

Pension benefits for employees are met by payments to a defined contribution pension fund. Contributions are charged to the profit account in the year in which they fall due.

Dividends

Dividends to the Company's shareholders are recognised as a liability of the company when approved by the Company's shareholders.
