NOTES TO THE ABRIDGED UNAUDITED FINANCIAL STATEMENTS FINANCIAL PERIOD ENDED 30 JUNE 2025

1. GENERAL INFORMATION

The financial statements comprising the profit and loss account, the balance sheet and the related notes constitute the individual financial statements of SPQ Construction Limited for the financial period ended 30 June 2025.

SPQ Construction Limited is a private company limited by shares (registered under Part 2 of the Companies Act 2014), incorporated and registered in the Republic of Ireland (CRO number 763975). The registered office is located at Beachcroft House, Ballydribbeen, Killarney, Co. Kerry. The principal place of business of the company is Beachcroft House, Ballydribbeen, Killarney, Co. Kerry. The nature of the company's operations and its principal activities are set out in the Directors' Report.

Statement of compliance

The financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS 102), applying Section 1A of that standard and the Companies Act 2014.

Currency

The financial statements have been presented in the Euro currency (€) which is also the functional currency of the company.

2. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 (the Act) and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". The company qualifies as a small company as defined by Section 280A of the Act, in respect of the financial period and has applied the rules of the "Small Companies Regime" in accordance with Section 280C of the Act and Section 1A of FRS 102.

Turnover

Turnover is recognised to the extent that the company obtains the right to consideration in exchange for its performance. Turnover is measured at the fair value of the consideration received, excluding where relevant discounts, rebates, VAT and other sales taxes or duties.

The following criteria must also be met before turnover is recognised:

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Rendering of services

Turnover from the provision of services is recognised in the accounting period in which the services are rendered and the outcome of the service can be estimated readily.

Taxation

The company is managed and controlled in the Republic of Ireland and consequently, is tax resident in Ireland.

Current tax

Current tax is calculated on the profits of the period. Current tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences, except that unrelieved tax losses and other deferred tax assets are recognised only to the extent that the directors consider that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Timing differences are differences between taxable profits and total comprehensive income that arises from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes prime costs, overheads and interest incurred in financing the construction of tangible fixed assets. Capitalisation of interest ceases when the asset is brought into use.

Depreciation

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets, other than freehold land, over their expected useful lives, using the straight-line method.

The rates applied in calculating depreciation are:

Equipment	20% Straight Line
Motor Vehicles	20% Straight Line

Impairments

Assets not carried at fair value are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount and is recognised in the profit and loss account. If an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the profit and loss account.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Stock

Stocks are valued at the lower of cost and net realisable value. Full provision has been made for damaged, deteriorated, obsolescent or unusable materials. In the case of work in progress, cost is defined as the aggregate cost of raw material, direct labour and attributable proportion of direct production overheads.

Net realisable value comprises the actual or estimated selling price less all further costs to completion or to be incurred in marketing, selling and distribution.

Debtors

Short-term debtors are measured at transaction price, less any impairment. Known bad debts are written off and a provision is made to cover any amounts, the collection of which is considered doubtful. All movements in the level of the provision required are recognised in the Profit and Loss Account.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts, if present, are shown within borrowings in current liabilities in the balance sheet.

Creditors

Short-term creditors are measured at transaction price. Other financial liabilities, including, if present, bank loans, are measured initially at fair value, net of transaction costs and measured subsequently at amortised cost using the effective interest method.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts are recognised in the balance sheet and are depreciated over their useful lives with the corresponding lease or hire purchase obligation being recognised as a liability. The interest element of the finance lease rentals are charged to the profit and loss account over the period of the lease and represent a constant periodic rate of interest on the balance of capital repayments outstanding.

Operating lease rentals are charged to the profit and loss account on a straight-line basis over the lease term.

Loans from Directors

Loans from directors who are natural persons and shareholders in the company (or close members of the family of such persons) are initially measured at transaction price and not discounted on subsequent measurement.

Ordinary Share Capital

The ordinary share capital of the company is presented as equity.

Judgements

The directors consider the accounting assumptions below to be its critical accounting judgements:

Going Concern

The financial statements have been prepared on the going concern basis, which assumes that the company will continue in operational existence for the foreseeable future.
