Statement of directors' responsibilities for the shareholders' financial statements

The Directors are responsible for preparing the Directors Report and Financial Statements in accordance with the applicable Irish law and regulations in Ireland.

Irish company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the company as at the financial year end and of the profit or loss of the company for that financial year. Under the law, the directors have elected to prepare financial statements in accordance with the Companies Act 2014 and FRS 102, the Financial Reporting Standard applicable in the UK & Republic of Ireland issued by the Financial Reporting Council. Under company law, the directors must not approve financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the company as at the financial year end date and of the profit and loss of the company for the financial year and otherwise comply with the Companies Act 2014. In preparing the financial statements the directors are required to:

- Select suitable accounting policies and then apply them consistently
- Make judgements and estimates that are reasonable and prudent
- State whether applicable accounting standards have been followed, identify those standards and note the effect and reasons for any material departures from those standards which should be explained in the financial statements
- Prepare the financial statements on a going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and which enable them to ensure that the financial statements and Directors Report comply with the Companies Act 2014 and all Regulations to be construed as one with those Acts. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities. The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website.
