Directors' report

The directors submit their report together with the financial statements of the company for the year ended 30 April 2025.

Principal Activity and Review of Business Developments

The company is an owners' management company (OMC). The company was established for the purposes of becoming the owner of the common areas of the residential development located at Old Farm, Carpetstown Road, Dublin 15 and the management, maintenance and repair of these areas.

In the current economic environment, the directors wish to avoid any increase in management fees to members. To achieve this objective the directors have where possible obtained price reductions from suppliers and have sought to collect all management fees from members in a timely manner.

In order to continue to maintain management fees at the current level, the future cooperation of members will be required in the payment of management fees within thirty days of the issue of the fee invoices.

Principal risks facing the company

In common with many owner management companies, the company faces increased demands from members to deliver a more cost efficient service. These demands require significant cost savings and efficiencies in the delivery of the management service. The board will continue to strive to achieve savings and efficiencies but we may not be able to maintain the current level of management fees in future years due to continued upward pressure on service costs.

In accordance with the requirement of Section 19 of the Multi-Unit Development Act 2011 a sinking fund has been established by the company to meet the cost of large, non-regular repair and maintenance work.

In relation to the size of the sinking fund that is appropriate to meet likely future non-regular repair and maintenance work, the inherent uncertainty in budgeting for such costs, means that the future value of the fund could prove insufficient. In such a situation, members would be required to make increased annual contributions or an additional once off contribution to ensure that the company would have sufficient resources to meet all its obligations. The board will continue to review the adequacy of the sinking fund in light of future developments.
