The financial statements have been prepared in accordance with the micro-companies' regime and FRS 105 "The Financial Reporting Standard applicable to the Micro-Entities Regime".

We as Directors of Daniel Whelan Tiling & Bathrooms Limited, state that -

- (a) the company is availing itself of the exemption provided for by Chapter 15 of Part 6 of the Companies Act 2014,
- (b) the company is availing itself of the exemption on the grounds that the conditions specified in section 358 are satisfied,
- (c) the shareholders of the company have not served a notice on the company under section 334(1) in accordance with section 334(2),
- (d) we acknowledge the company's obligations under the Companies Act 2014, to keep adequate accounting records and prepare financial statements which give a true and fair view of the assets, liabilities and financial position of the company at the end of its financial year and of its profit or loss for such a financial year and to otherwise comply with the provisions of the Companies Act 2014 relating to financial statements so far as they are applicable to the company,
- (e) the company has relied on the specified exemption contained in section 352 Companies Act 2014 (as a micro company). The company has done so on the grounds that the company is entitled to the benefit of that exemption as a small company and the abridged financial statements have been properly prepared in accordance with section 353 Companies Act 2014 and the micro companies' regime.

Approved by the Directors and authorised for issue on 24 February 2026 and signed on its behalf by:

Daniel Whelan
Director

Daniel Whelan Tiling & Bathrooms Limited

NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

for the financial year ended 31 March 2025

1. General Information

Daniel Whelan Tiling & Bathrooms Limited is a company limited by shares incorporated and registered in Ireland. The registered number of the company is 622983. The registered office of the company is 54 Finglas Park., Glasnevin, Dublin 11. The financial statements have been presented in Euro (€) which is also the functional currency of the company.

2. Summary of Significant Accounting Policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The Financial Statements are prepared on the going concern basis, under the historical cost convention and comply with the financial reporting standards of the Financial Reporting Council including 'The Financial Reporting Standard applicable to the Micro-Entities Regime – 'FRS 105', the Companies Act 2014.

The financial Statements have been presented in Euro (€) which is also the functional currency of the company.

The company qualifies as a micro company as defined by section 280D of the Companies Act 2014 in respect of the financial year, and has applied the rules of the 'Micro Companies Regime' in accordance with section 280E of the Companies Act 2014 and FRS 105.

Turnover

Turnover is recognised to the extent that the company obtains the right to consideration in exchange for its performance. Turnover comprises the fair value of consideration received and receivable exclusive of value added tax and after discounts and rebates.

Where the consideration receivable in cash or cash equivalents is deferred, and the arrangement constitutes a financing transaction, the fair value of the consideration is measured as the present value of all future receipts using the imputed rate of interest.

Turnover from the provision of services is recognised in the accounting period in which the services are rendered and the outcome of the contract can be estimated reliably. The company uses the percentage of completion method based on the actual service performed as a percentage of the total services to be provided.

Provisions

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

Tangible assets and depreciation

(i) Cost

Tangible fixed assets are recorded at historical cost, less accumulated depreciation and impairment losses. Cost includes prime cost and overheads incurred in financing the construction of tangible fixed assets. In accordance with Section 20 of FRS 105 interest costs are not capitalised.

Depreciation

Depreciation is provided on Tangible fixed assets, on a straight-line basis, so as to write off their cost less residual amounts over their estimated useful economic lives.

The estimated useful economic lives assigned to Tangible fixed assets are as follows:

Land and buildings freehold	-	NA
-----------------------------	---	----

Daniel Whelan Tiling & Bathrooms Limited

NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

for the financial year ended 31 March 2025

Plant and machinery	- 12.5% Straight line
Fixtures, fittings and equipment	- 12.5% Straight line
Motor vehicles	- 20% Reducing balance method

The company's policy is to review the remaining useful economic lives and residual values of Tangible fixed assets on an on-going basis and to adjust the depreciation charge to reflect the remaining estimated useful economic life and residual value.

Fully depreciated property, plant & equipment are retained in the cost of property, plant & equipment and related accumulated depreciation until they are removed from service. In the case of disposals, assets and related depreciation are removed from the financial statements and the net amount, less proceeds from disposal, is charged or credited to the profit and loss account.

(ii) Impairment

Assets not carried at fair value are also reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Value in use is defined as the present value of the future pre-tax and interest cash flows obtainable as a result of the asset's continued use. The pre-tax and interest cash flows are discounted using a pre-tax discount rate that represents the current market risk free rate and the risks inherent in the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the profit and loss account.

If an impairment loss is subsequently reversed, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the profit and loss account.

Leasing and Hire Purchases

Tangible assets held under leasing and Hire Purchases arrangements which transfer substantially all the risks and rewards of ownership to the company are capitalised and included in the Statement of Financial Position at their cost or valuation, less depreciation. The corresponding commitments are recorded as liabilities. Payments in respect of these obligations are treated as consisting of capital and interest elements, with interest charged to the Income Statement.

Stocks

Stocks are valued at the lower of cost and net realisable value. Stocks are determined on a first-in first-out basis. Cost comprises expenditure incurred in the normal course of business in bringing stocks to their present location and condition. Full provision is made for obsolete and slow moving items. Net realisable value comprises actual or estimated selling price (net of trade discounts) less all further costs to completion or to be incurred in marketing and selling.

Trade and other debtors

Trade and other debtors including amounts owed from group companies are recognised initially at transaction price (including transaction costs) unless a financing arrangement exists in which case they are measured at the present value of future receipts discounted at a market rate. Subsequently these are measured at amortised cost less any provision for impairment. A provision for impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. All movements in the level of the provision required are recognised in the profit and loss.

Cash at bank and in hand

Cash and at bank and on hand include cash on hand, demand deposits and other term highly liquid investments regardless of maturity. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

Daniel Whelan Tiling & Bathrooms Limited

NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

for the financial year ended 31 March 2025

Borrowing costs

Borrowings are recognised initially at the transaction price (including transaction costs). Interest is recognised as per the contract on an accruals basis. Transaction costs are written off to the profit and loss over the life of the loan on straight line basis where material.

Trade and other creditors

Creditors and accruals are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

As permitted by the amendment made to FRS 102 Section 11 for small entities by the FRC on 8 May 2017 amounts due from directors and shareholders of the entity are stated initially at the transaction price and subsequently at transaction price less repayments. The amortised cost model is not used.

Taxation

Current tax is calculated on the profits of the period. Current tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date.

Current taxation assets and liabilities are not discounted.
Deferred tax is not recognized.

Foreign currencies

Exceptional item

Exceptional items are those that the directors' view are required to be separately disclosed by virtue of their size or incidence to enable a full understanding of the company's financial performance.

3. Appropriation of Income Statement	2025	2024
	€	€
Profit brought forward	304,689	31,800
Profit for the financial year	106,394	272,889
Profit carried forward	411,083	304,689

4. Post-Balance Sheet Events

There have been no significant events affecting the company since the financial year-end.

5. Contingencies

Contingent liabilities, arising as a result of past events, are not recognised when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the company's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

Contingent assets are not recognised. Contingent assets are disclosed in the financial statements when an inflow of economic benefits is probable.

6. Controlling party

The ultimate controlling parties are Daniel Whelan (50%) and Andrienne Whelan (50%).

7. Approval of financial statements

The financial statements were approved and authorised for issue by the board of directors on 24 February 2026.
