Statement of compliance

The financial statements of the company for the financial year ended 31 December 2025 have been prepared on the going concern basis and in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS 102).

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention except for certain properties and financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" issued by the Financial Reporting Council.

Borrowing costs

Borrowing costs are recognised initially at transaction price (present value of cash payable to bank, including transaction costs). Borrowings are subsequently stated at amortised cost. Interest expense is recognised on the basis of the effective interest method and is included in finance cost.

Borrowings are classified as current liabilities unless the company has a right to defer settlement of the liability for at least 12 months after the reporting date.

Trade and other creditors

Creditors and accruals are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

As permitted by the amendment made to FRS 102 Section 11 for small entities by the FRC on 8 May 2017 amounts due from directors and shareholders of the entity are stated initially at the transaction price and subsequently at transaction price less repayments. The amortised cost model is not used.

Employee benefits

During the period, the company had no employees and incurred no employee benefits.

Taxation

Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current tax is calculated on the profits of the period. Current tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date.

Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the Balance Sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated at the rates of exchange ruling at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The resulting exchange differences are dealt with in the Profit and Loss Account.
