# Directors' Report

For the year ended 31 August 2025

The directors present their report and the financial statements for the year ended 31 August 2025.

## Principal Activities

The company is principally engaged in the management of the common areas of The Windmill, Windmill Street, Limerick. The Company re-invoices all the common area costs to the owners. KMPM as managing agents will continue to actively pursue collection of all service charge debtors and seek operational cost savings where possible.

There has been no significant change in this activity during the year.

## Financial Results

The deficit for the year amounted to €5,503 (2024 –surplus €11,808).

At the end of the year, the company has assets of €43,814 (2024 - €28,150) and liabilities of €37,576 (2024 - €22,409). The net assets of the company have increased by €497.

## Political Contributions

The company did not make any political contributions during the year.

## Review of Activities and Future Developments

The owners maintain the premises to a very high standard and will continue to do so in the coming period. They are also committed to managing and safeguarding a sinking fund for any future capital funding that may be required for the development. The directors are not expecting to make any significant changes in the nature of the business in the near future.

## Principal Risks and Uncertainties

As for many organisations of our type, the principal risk that could materially and adversely affect the company's future is the failure to collect service charges from members, leading to a lack of funds to meet the annual maintenance costs of the complex.

If service charges are uncollected it may lead to a shortage of cash in the company and any shortfall will have to be met by the other members or by a reduction in future spending. It is therefore critical that service charges are collected from owners on a timely basis each year so the company can discharge its obligations as they fall due.

The directors are aware of the risks to which the company is exposed, in particular those related to the collection of service charge arrears and are satisfied that systems are in place to mitigate exposure to risk.

## Events Since the End of the Year

There have been no significant events affecting the company since the year end.
