Socorn Limited

**Balance sheet (continued)
As at 30th September 2025**

We, as directors of Socorn Limited state that:

- the company is availing itself of the exemption provided for by Chapter 15 of Part 6 of the Companies Act 2014;
- the company is availing itself of the exemption on the grounds that the conditions specified in section 358 of the Companies Act 2014 are satisfied;
- the shareholders of the company have not served a notice on the company under section 334(1) of the Companies Act 2014 in accordance with section 334(2);
- We acknowledge the company's obligations under the Companies Act 2014, to keep adequate accounting records and prepare financial statements which give a true and fair view of the assets, liabilities and financial position of the company at the end of its financial year and of its profit or loss for such a financial year and to otherwise comply with the provisions of Companies Act 2014 relating to financial statements so far as they are applicable to the company; and
- the company has relied on the specified exemption contained in section 352 of the Companies Act 2014; has done so on the grounds that the company is entitled to the benefit of that exemption as a small company and the abridged financial statements have been properly prepared in accordance with section 353 of the Companies Act 2014.

These abridged financial statements were approved by the board of directors on 16th March 2026 and signed on behalf of the board by:

Stephen O' Connor
Director

Norma O' Connor
Director

The notes on pages 4 to 9 form part of these abridged financial statements.

Socorn Limited

Notes to the abridged financial statements Financial year ended 30th September 2025

1. General information

The company is a private company limited by shares, registered in the Republic of Ireland. The address of the registered office is Coolyhane, Macroom, Co. Cork.

2. Statement of compliance

These financial statements have been prepared in compliance with FRS 102 Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Critical accounting judgements and estimates

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

Judgements and estimates are continually evaluated and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Providing for accruals

The company recognises expenses when they are incurred. This involves the calculation of accruals at each period end to account for incurred expenses. This requires estimation of the expected cost.

4. Accounting policies and measurement bases

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in Euro, which is the functional currency of the entity.

Going concern

After reviewing the company's forecasts and projections, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company therefore continues to adopt the going concern basis in preparing its financial statements.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Socorn Limited

Notes to the abridged financial statements (continued) Financial year ended 30th September 2025

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

The deferred tax position of the company has been considered. As it is not material, deferred tax has not been included in the accounts.

Tangible assets

Tangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated depreciation and impairment losses.

Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in capital and reserves, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in capital and reserves in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in capital and reserves in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Fittings fixtures and equipment - 12.5% straight line

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

Socorn Limited

Notes to the abridged financial statements (continued) Financial year ended 30th September 2025

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Financial instruments

Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest rate method, less any impairment.

Cash and cash equivalents

Cash is represented by cash in hand, and deposits with financial institutions without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risks of change in value. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

Creditors

Creditors are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Short term creditors are measured at the transaction price. Other financial liabilities are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest rate method.

Borrowings

Borrowings are recognised initially at the transaction price (present value of cash payable to the bank, including transactions costs). Borrowings are subsequently stated at amortised cost. Interest expense is recognised on the basis of the effective interest method and is included in finance costs.

Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Socorn Limited

Notes to the abridged financial statements (continued) Financial year ended 30th September 2025
