NOTES TO THE ABRIDGED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 1 NOVEMBER 2025

1. GENERAL INFORMATION

The financial statements comprising the Profit and Loss Account, the Balance Sheet, Statement of Changes in Equity, and the related notes constitute the individual financial statements of Ramp Platform Europe Limited for the financial period ended 1 November 2025.

Ramp Platform Europe Limited is a private company limited by shares (registered under Part 2 of the Companies Act 2014), incorporated and registered in the Republic of Ireland (CRO number 763209). The Registered Office is 6th Floor, South Bank House, Barrow Street, Dublin, Dublin 4. The nature of the company's operations and its principal activities are set out in the Directors' Report.

2. ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention modified to include certain items at fair value. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 (the Act) and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" issued by the Financial Reporting Council.

The company qualifies as a small company for the period, as defined by section 280A of the Act, in respect of the financial year, and has applied the rules of the 'Small Companies Regime' in accordance with section 280C of the Act and Section 1A of FRS 102.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

2.2 FOREIGN CURRENCY TRANSLATION

Functional and presentation currency

The Company's functional and presentational currency is Euros.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

2.3 DEBTORS

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

FOR THE PERIOD ENDED 1 NOVEMBER 2025

ACCOUNTING POLICIES (CONTINUED)

2.4 TAXATION

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profit; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.5 FINANCIAL INSTRUMENTS

The company has chosen to apply the provisions of Section 11 and 12 of FRS 102 to account for all of its financial instruments.

Ordinary Share Capital

The ordinary share capital of the company is presented as equity.

Other financial assets

Other financial assets including trade debtors arising from goods sold to customers on short-term credit, are initially measured at the undiscounted amount of cash receivable from that debtor, which is normally the invoice price. If payment is deferred beyond normal business terms or is financed at a rate of interest that is not a market rate, this constitutes a financing transaction, and the financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Subsequently, other financial assets are measured at amortised cost less impairment, where there is objective evidence of impairment.

3. PERIOD OF THE FINANCIAL STATEMENTS

The financial statements are for the period from incorporation, 1 May 2024 to 1 November 2025.

4. EMPLOYEES

The Company has no employees other than the directors, who did not receive any remuneration.
