Directors report

The directors present their annual report and the audited financial statements of Ballymore RCP Developments Limited ("the company") for the financial year ended 31 March 2025.

Directors

The names of the persons who at any time during the financial year were directors of the company are as follows:

Sean Mulryan
Patrick Phelan
Patrick Dalton

In accordance with the company's Constitution the directors are not required to retire by rotation.

Principal activities

The principal activity of the company is residential property development.

Principal risks and uncertainties

The directors consider that the principal risks and uncertainties faced by the company are in the following categories:

Economic risk

The following represent the primary economic risks to the company:

- The risk relating to the availability of finance having an adverse impact on its business. This risk has been mitigated by its parent company having a 5-year corporate facility with AIB.
- The risk relating to increases in interest rate movements. The global interest rate environment has moved from zero/negative rates to an era of higher rates.
- The risk of increases in development and operating costs impacting adversely on competitiveness of the company. Increases in the various global price indices for building and construction materials have moderated in the past year.
- The impact of planning decisions on a fellow group company's assets.

These risks are managed by due consideration of the interest rate environment, business planning, strict cost control and management of planning applications.

Ballymore RCP Developments Limited

Directors report (continued)

Principal risks and uncertainties (continued)

Market risk

The company is engaged in residential property development. There is a shortage of housing in the Irish market and funding for the purchase of new homes is subject to Central Bank regulations on mortgage lending. Demand for new homes is supported by the Help to Buy and Shared Equity schemes which are key elements of the Irish government's housing strategy. The company is also subject to the wider economic challenges facing the Irish economy. Current projections are for the Irish economy to continue to grow in the coming year. Subject to the resolution of the current global challenges, the prognosis for the Irish economy continues to be positive.

The directors manage market risk through careful attention to residential and commercial property markets and through appropriate business planning and pricing. In particular, the company carefully monitors KPIs such as forward sales compared with construction commitments so that we can react decisively in the event of a future downturn in the Irish or global economy and ensuring that we don't have a material overhang of unsold stock at any time.

Regulatory Risk

As the company is engaged in construction and development management services, it is therefore subject to extensive and complex laws and regulations relating to environment and health and safety. Non-compliance can result in delays thereby incurring substantial costs, restrictions and/or delays on construction or damage to the company's reputation. The company actively engages with professionals to ensure that all regulatory and legal compliance criteria are met.

Results

The results of the company for the year are set out in the statement of comprehensive income on page 9 and in the related notes.

Dividends

During the financial year the directors have not paid any dividends or recommended payment of a final dividend (2024 : €359,552).

Post balance sheet events

There have been no significant events affecting the company since the year end.

Political and charitable donations

The company made no political or charitable donations during the year (2024: €Nil).

Directors and secretary and their interests

The directors and the secretary, at the financial year end, had no interests in shares in, or debentures of, the company or group companies other than: at 31 March 2025, Mr. S Mulryan held 11,780 ordinary shares at €1 each and 1,036 growth shares at €1 each in Eglinford Ireland Developments Limited (2024: 11,780 ordinary shares at €1 each in Eglinford 2 Unlimited Company).

Accounting records

The measures taken by the directors to secure compliance with the requirements of sections 281 to 285 of the Companies Act 2014 with regard to the keeping of accounting records are the implementation of necessary policies and procedures for recording transactions, the employment of competent accounting personnel with appropriate expertise and the provision of adequate resources to the financial function. Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Notes to the financial statements Financial year ended 31 March 2025

1. Accounting policies

Ballymore RCP Developments Limited ("the company") is a private company limited by shares and incorporated, registered and domiciled in Ireland. The company's registered number is 557946 and registered address is One Royal Canal House, Royal Canal Park, Dublin 15.

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', including its section 1A.

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in euro, which is the functional currency of the entity.

The preparation of financial statements in compliance with FRS 102 requires management to exercise judgement in applying the company's accounting policies. The key judgements made by management relate to recoverability of receivables.

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

1.1. Going concern

The company is a member of the group headed by Benhol Limited, a company incorporated in Jersey.

The financial statements of the company are prepared on the going concern basis, which the directors believe to be appropriate.

The directors have assessed the financial and operational requirements of the company and having undertaken this review, the directors have a reasonable expectation that the company has adequate resources to fund its operations for the foreseeable future and in particular for the period of at least 12 months from the date of approval of the financial statements. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

1.2. Taxation

Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax is recognised on taxable profit for the current year. Current tax is the amount of tax expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.
